

BikeVis Red Bullet Tail-Brake Converter

Disclaimer to read before installation

By installing or using any BikeVis product in any way for any purpose, you (the customer) do so at entirely at your own risk. BikeVis and its owners are not responsible for any damages caused by using our products be it personal injury, damage of property, prosecution (from a result of using our products), legal fees or loss of earnings whether the BikeVis product was fitted correctly as per this 'installation guide' or not. All BikeVis products are sold for personal use and only to be used only where the law permits you to.

Your statutory rights are not affected.

Thank you for purchasing our Red Bullet Tail Brake Converter

Install your Red Bullets as per their instructions but then wire them as below:-

The Yellow, Red and Black wires feeding the converter can all be spliced into your existing tail / brake light wiring. This preserves your current tail / brake light but adds the Red Bullets.

Many thanks

BikeVis
