

BikeVis T10 501 Wedge LED Installation

Disclaimer to read before installation

By installing or using any BikeVis product in any way for any purpose, you (the customer) do so at entirely at your own risk. BikeVis and its owners are not responsible for any damages caused by using our products be it personal injury, damage of property, prosecution (from a result of using our products), legal fees or loss of earnings whether the BikeVis product was fitted correctly as per this 'installation guide' or not. All BikeVis products are sold for personal use and only to be used only where the law permits you to.

Your statutory rights are not affected.

Thank you for purchasing our BikeVis T10 501 Wedge LEDs

Installation is a simply a case of pulling out your old OEM bulb and fitting the LED Wedge. Please note that these LEDs only work when inserted the correct way. (no damage will occur if incorrect)

With the above in mind, switch on your lights before reassembly of your lights to make sure you have them correctly inserted.

Many thanks

BikeVis
